Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 3-8, drawn to a process of forming an insulator/conductor, classified in class 438, subclass 763.
- II. Claims 9-12, drawn to process of forming semiconductor/conductor, classified in class 438, subclass 647.
- III. Claims 13-17, drawn to a process of forming an insulator/insulator, classified in class 438, subclass 761.
- IV. Claim 18, drawn to a process of forming a conductor/conductor, classified in class 438, subclass 584.
- * Claims 19 and 20 will be examined with whatever group is elected.
- 2. The inventions are distinct, each from the other because of the following reasons:

 Inventions I-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the each invention effects a materially different structure.
- Because these inventions are distinct for the reasons given above and have acquired a sonarate status in the art are bound to their their trees.
